

Supported by Durham County Council, Warm up North and County Durham and Darlington Fire and Rescue Service.

Durham County Council has launched the Warm and Healthy Homes Project; our aim is to help vulnerable private sector residents access, energy advice, efficient heating and insulation measures. The project will help clients who have a health condition resulting from living in a cold damp home.

We will also offer referrals for a benefit entitlement check and a home fire safety check which will be carried out by County Durham and Darlington Fire and Rescue Service.

Please return this Freepost card with your client's details; you and your client will be contacted very soon by an Energy Officer from Durham County Council.

County Durham and Dailington

Freepost Plus RJJ-JLHG-JTRJ Durham County Council Housing Regeneration Department 5th Floor Durham DH1 5UL
